Good Morning Mark,

The keys will be dropped off to your attention by tomorrow (Tue 11/10).

Thanks,

Victor Chanorathaikul

Hello Victor,

Will someone be bringing the keys by this coming Monday? If so, they can drop them off to my attention, so I can get them to the proper officers of the Westchester Streetscape Improvement Association.

Thanks

Regards,

Mark

Hi Dennis,

Dave Archer with BOE West Los Angeles District (cc'd here) will arrange to have keys and the irrigation chart delivered to you late this week, likely Thursday morning.

Thanks,

Victor Chanorathaikul

Victor, Can you contact the persons from BOE to obtain keys for the irrigation systems. You can get them to me and I will make the necessary arrangements to get them out to the Council Office.

On Mon, Nov 2, 2015 at 2:07 PM, Mark Grant <mark.grant@lacity.org> wrote:

Do we know who the BOE point person is?

<dennis.wake@lacity.org> wrote:

The keys we will be sending out are for the irrigation system on the east side (work performed by City BSS).

The locks on the other side (shown in photos) were installed by the BOE Contractor and we were never issued out these keys.

Hi Dennis,

If the keys can be dropped off here at the Council office, under my name, I'll take responsibility for making sure they get into the proper hands from the Westchester Streetscape Improvement Association.

I'm here at the Westchster Field Office. If you want to do it by grey mail, I'm at mail stop 931.

<dennis.wake@lacity.org> wrote:

If the locks were placed by the Contractor for the west side, you may want to have Victor C. place a request with the persons he was working with on that project. Copies of all the keys, as well as as-builts of the irrigation and copies of the backflow device testing forms should have been handed over at the time of the final walk-thru.

I can have my field staff drop off a set of the keys for the irrigation system. Who would be the one to meet with them and receive these keys?

Hi Dennis,

I'm forwarding you the request below from CD-11. I could be wrong but the locks in the pictures don't look like anything we typically use, so maybe they were placed on the controllers installed by Vahik/BOE's project on the west side of the street and you never got copies of those keys?

At any rate, if you could get Mark/Don Duckworth a copy of the keys to our controller enclosures, that'd be great. Thanks in advance for responding to this request on our behalf.

Sincerely,

Lance O.

Hello Veronica,

The forwarded email is regarding the need for a key to gain access to the irrigation control box, by the Westchester Streetscape Improvement Association (WSA).

Don Duckworth, the Executive Director of the BID for the WSA is the individual who will shoulder the responsibility for the security of the key. He is copied on this correspondence, along with Lance, who can provide you with whatever background you may need to follow through in reaching out to the correct office in order to obtain the key.

Thank you for your assistance in this effort.

Regards,

Mark

Ok. WSA is the city approved entity that maintains all public rights away in the Parkway and medians north of Manchester to Howard Hughes Parkway. We made case for every irrigation controller that the city has between Manchester and Howard Hughes Parkway on both sides of the street. Stance Sepulveda is oriented to the rear yards of these houses addresses are a little elusive and probably subject to a great deal of interpretation. Rather than send the wrong message we should just get everything.
